OVERVIEW

The Azimut 82 Fly 2026 represents the pinnacle of Italian yacht design, seamlessly blending style, performance, and innovation. Designed by Alberto Mancini with refined interiors by Fabio Fantolino, this 25-meter masterpiece marks a new era for Azimut—where power meets grace in perfect Balance Šibenik. She redefines luxury at sea, where power, elegance, and innovation converge.

Unveiled at the 2025 Cannes Yachting Festival, her advanced carbon-fiber construction delivers exceptional strength and agility, while the revolutionary Deck2Deck™ system transforms the cockpit into an expansive sea-level terrace, creating an intimate connection with the ocean.

Every element on board has been meticulously curated, from the light-filled panoramic salon to four sumptuous ensuite cabins, each offering the highest standards of comfort and craftsmanship.

Powered by triple Volvo IPS 1350 engines, the Azimut 82 Fly glides effortlessly through the water, reaching speeds of up to 32 knots and ensuring a smooth, exhilarating charter experience.

Balance Šibenik offers accommodation for up to eight guests in four well-appointed cabins—three with double beds and one with twin beds—each with its own ensuite bathroom.
