OVERVIEW

Designed by Luca Dini in collaboration with the design team in the group, ANAVI is a 35 metre long luxury yacht built on aluminium alloy which travels at 18 knots and can reach a maximum speed of 28 knots. The characteristic V-shape of the keel is designed by Bacigalupo. Rigorous and essential lines of the Interior gives this yacht a unique style that employs essential materials such as titanium and lacquer paints. The Interior is characterized by a palette that includes an elegant mix of shades grey that recalls the colour of the exterior and blend well to honey-colored wood floors 100 years-old oak, matt white ceilings and walls. The plush sofa of the living room made with fine leathers and fabrics from the darker colours create a pleasant contrast effect. The dining area has a basic aluminium table which can accommodate 8 people. The four cabins are all equipped with private bathrooms and closets area.
